Summary

I am a dedicated Computer Science and Engineering student with a strong passion for AI and machine learning. Proficient in object-oriented programming and database management. Experienced in providing level one technical support. In anything I accomplish, I try to do it to the best of my ability. I'm committed to finishing tasks on schedule.

Technical Skills

- **Language:** PHP, Python, JavaScript
- **Software Development:** Laravel, REST API, PL/SQL
- **Database Management:** MySQL, MongoDB
- **Tools & Technologies:** Git, Linux, Tensorflow, PyTorch

Professional Experience

Associate Software Developer, 1Contractor (Based on USA), May 2025- Nov 2025

- Provided remote technical support, and developed their web portal.
- Managed their existing website and migrated to Laravel and MySQL
- Managed IT tickets and resolved support requests promptly, maintaining service-level agreements (SLAs).

Research Experience

- Thesis Paper (under publication): DeepFake Audio Detection
- Hand Sign AI: Detecting Emotions based on user HandSign (ongoing)

Projects

1. **ZawajAfrica** [\[Link\]](#)
 - Developed a web-based Matrimonial website for an African client.
 - **Backend:** PHP & MySQL | **Frontend:** Vuejs, Tailwind.
2. **ArfanExpress LTD** [\[Link\]](#)
 - Developed a web-based application to showcase Company portfolio
 - **Framework:** Laravel | **Backend:** PHP | **Database:** MySQL
3. **1Contractor** [\[Link\]](#)
 - Developed a Permitting website for 1Contractor based in the USA. It features realtime messaging permitting document approval simultaneously
 - Implemented stored **procedures**, **cursors**, **functions**, and **triggers** for efficient data management.
4. **Brand New Print (Ongoing)** [\[Link\]](#)
 - It has bilingual setup using Laravel localization and an ERP
 - **Technologies:** Laravel, MySQL, livewire
5. **Safety Detection and attendance system using YOLOv5 Model** [\[Link\]](#)
 - Developed a face recognition-based attendance system using CNN and transfer learning.
 - Collected and pre-processed facial data from class students to enhance model accuracy.
 - Utilized YOLOv5 for real-time face detection and recognition.

Education

North South University- Bangladesh [2021 – 2025]

Bachelor of Science in Computer Science and Engineering
CGPA: **2.92** out of 4.00

Dr. Mahbubur Rahman Mollah College [2020]

Higher School Certificate (HSC)
GPA: **4.80** out of 5.00 | Group: Science
